Mrs. Bickett's Second Grade Note

Bible: We are continuing to learn about the nation of Israel in class this week. We will see the sin cycle and how God would punish and then restore the nation as they repented of their sin. We are continuing to work on Romans 10:9-10 this week. We will recite this verse next Friday.

Phonics and Language:We will identify the two parts of a sentence (subject part and predicate part). We will continue to learn about root words and suffixes, compound words and where to divide words into syllables.

Spelling: We are studying list 8 words. This is a review list.Spelling test 8 will be given on Friday.

Math: We will learn the 11 addition family and the 10 and 11 subtraction families. We will learn to measure to the nearest inch, and half inch. If you have math fact flashcards at home it would be great if your child would practice them. We really want the students to have memorized their addition and subtraction facts up through 18 by the end of 2nd grade.

History: We are continuing to learn about early American history.

Handwriting: We are continuing to improve our handwriting through lessons that allow us to write a verse to share with someone.

Mrs. Odell's Fourth Grade Note

We will be learning Colossians 1:15-17 – "He is the image of the invisible God, the firstborn over all creation. For by Him all things were created: things in heaven and on earth, visible and invisible, whether thrones or powers or rulers or authorities: all things were created by Him and for Him. He is before all things and in Him all things hold together." Psalm 139:1-14 is almost finished. We are also realizing the presence of the Trinity in Matthew 3:16-17..

We will be working on geometry and more standard measurements in math. We are testing on list 8 in spelling tomorrow then on to list 9.

I will be available for a conference with you this week if you would like to sign up by my door or contact me for a convenient time.

We have been talking of some of the struggles of adventurer's life and we would like to do some pretending for a day on Tuesday, October 27. The children may dress "pioneer" like or even Western and we will attempt to do without electricity in the classroom. I think it will be an "eye-opener" for all of us!

Have a great week!

Mr. Clausen's Fifth Grade Note

Arithmetic: Be sure your student is working on weights/measurements, divisibility rules, and various terms that we have been reviewing in class.

History: Test next week (probably on Thursday) over Chapters 1-6. Be sure to know the countries and capitals that we have been studying.

Science: Test next week (probably Wednesday) over Chapters 1-3. Various extra credit diagrams have been made available to students. Diagram of lenses, mirrors (as given in the book, Chapter 3). More will be coming. Please turn them in by the time of the test.

Nation Notebook: We should have 15 pages done. Keep going!

Mrs. McCoy's History Note

7th grade World History: Ancient Wonders of the World model projects should be underway by now! Be sure to read the project rubric and help support your student in completing their project throughout this week. Projects due next Thursday, Oct 22nd!

9/10th World Geography: Test #2 over Chapter 2 this Friday
